DENTAL PROJECT
ZANZIBAR 2017
March 21.-31., 2017
office@dentisttheworld.com
Sharing our knowledge, ambition and passion for dentistry with people in need all over the world, we aspire to provide the oral health care for those in need, who have never previously received ample dental care. Our major goal is to make people smile again!

- Prevention of oral diseases (mainly for children)
- Training and educating local physicians,
- Therapy on site,
Possible cooperation

Media presence
-Social media, webpage dentisttheworld.com, publications in magazines and newsletters, company logo and name built in presentations at various public events
-A positive outlook of one’s brand as a beneficial partner
-implementing a humanitarian organisation in all one’s public relations affairs perceivedness of one’s brand as philanthropic
Projects

Where have we been situated so far?
- Dental Project Nepal
- Dental Project Tanzania, Zanzibar
- Dental Project Mosambik
- Greece refugee camp – in progress
- Croatia, Pula - Down Syndrome Center – in progress
Facts and Figures

On the whole Island of Zanzibar (1.5 million people) there only four dentists.

The majority or rural population are more likely to consult a shaman than a dentist.

There continues to be recurring death reports due to dental abscesses and Ludwig’s angina in Mozambique.

Only 33% of the population has access to running water and 80% of its population’s never visited a dentist.

With only 150 euros a whole school class can be equipped with a year long stock of toothbrushes and toothpastes.
Great partners need strong partners

The remotest corners of the world are devoid of:
- Children toothbrushes/toothbrushes,
- Children toothpaste/toothpaste,
- Filling materials (amalgam capsules, GIZ, composite),
- Local anesthetics and cannulas,
- Abrasive drills (metal and diamond drills),
- Medicinal supplement for root canal treatments (CaOH fillings),
- Disposable materials (face masks, gloves, visors, etc.),

How can one help us:
- Material contributions,
- Money donations,
- Participation in the projects in situ
Us and our partners

**Dominic Danijel**
- Resident at the University of Dental Medicine Vienna and chairman of the organisation
- Dentistry is and always will be my greatest passion.
- I am driven by travels and discovering new grounds.
- I am always eager to take on new challenges and push my personal boundaries. Projects like this let me grow as a person.
- #Dentisttheworld creates a great platform of sharing knowledge and skills with people in need.

**Dr. Valic Bruno**
- Graduated as dental doctor in Vienna in 2013.
- Working in public health service (WGKK), private practices and volunteering at “Neunerhaus” for homeless people in Vienna. Currently working in a dental clinic in Vienna.

**Micic Ljubomir**
- Intern at the University Dental Clinic in Belgrade, Serbia
- Member of the IADS (International Association of Dental Students)
